Misfit Assignment

A we'l-known chief engineer of the navy who tips the seales at a trifle more than 300 pounds was recently ordered to take charge of the mechanical department of one of the smaller gunheats on the Pacific station. The englneer, says the Washington Post, didn't particularly like the assignment, but it dhin't worry him to the point of suielde. He simply sat down and made a sketch of the excerdingly narrow dours that lead into the engine rooms of the gunboat to which he was ordered, marking the dimensions of the doors in figures on the sketch. Helow his drawing of one of the engine-room doors this jolly ehlef engineer made a neat sketch of himself, full figure, not rxaggerating his Falstafflan paunch a triffe. He attached his own dimensions in feet and luches, circumferentially, to this sketch of himself. Then he put the aketches in an envelope and "respectfully submitted" them to the bureau of navigation. It was the sort of document that occasionally makes a hit, The inference to be drawn from the sketch was so obvious-the impossibil lty of the chief rngineer's passage through the engine-room doors of the ship to which he was ordered was so apparent-that the assignment was recalled, and the laconic chief engineer batch of steam engineering assignments is made.

Many a literary gem and blt of lofty sentiment is to be found in cottections of anonymous productions. Here is one so beautiful in form and so tender in feeling that all who appreclate Its worth must regret that Its author is unknown. "'You can make the clock sirike before the hour hy putting your own hands on II, but It will strike wrong. You can lenr the rosehud open before its time, but you mar the beauty of the rose.' So we may spoil many a gift or blessing which God is preparing for us by our own rager haste. He is weaving our lives into patterns of beauty and strength. He has a perfect plun for each. Don't pull at the threads of life. Don't hurry the Aimighty's plan. We must live by prayer in our tgnorance of life. God's love Is the motive of all delay-to give us unexpected and aurprising blessings."

American agricultural products are finding a ready market in Africa. Government reports show that in the first nine months of 1898 1,434,000 bushels of rern wrnt to Africa against only 650,000 bushels in the corresponding period of 1597: 3,608,000 bushels of wheat in the first nine months of 1898 against 1,966,-000 bushels in the first nine months of 1597; 3,953,000 pounds of canned beef against 2,869,000 pounds; lard, 1,752,00.1 ounds against 1,035,000 pounds. Even American butter found a market lo that part of the world, the exports of butter in the nine mouths of 1898 below 16,614 pounds against 15,340 pounds In the corresponding period of 1897 and 2,416 pounds in 1896. In this period of 1893 1,579,000 pounds of leaf tobacco was exported to Africa and \$222,345 worth of manufactured tobacco.

A Rostou girl who recently witnessed an Indian sham battle in the west, thought she would try to talk to a young Indian brave sitting next to her. a stotcal sinile, drew his blanket might well do so without his public closer about him and said: "Yes, this spiritedness being called in question. is indeed a great exposition, and we flatter ourselves that our portion of the entertalnment is by no means the least attraction here. Mny I ask who it is that I have the honor of addressing?" The dear girl from Boston was thunderstruck. She blushed a rosy red-even Boston girls can blush. She was not Indian who had been graduated from the Carliele Indian school.

The city of Osympia, Washlugton, is going to place a commemorative lablet ou the forward turret of the Olympla, the Hagship of Admiral Dewry during the Maulla fight. The design will be done in relief on copper, the central attraction being a ligure representing l'ame. Suspended from the arms of the figure and falling across the front of the body will be streamers, on which will be Insertbed Prwey's famous order: "Gridley, you may fire when ready."

Experiments have been going on with over a man's eye so that the eyelld as 32 shors a mlaure with the Mauser. rates to Wisconsin, Minnesona. Nebraska and prints in the far West, including (allifornia, shund address there is no way of recording the anda fountain wink. The wink that a man gives the clerk when he is taking a soft drluk with his wife would heat any machine that could be devised

> Gen. Shafter says that 300 men of the Seventy-first New York volunteers had ; never fired a gun when they landed in Cuba. Yet they were put in the battle line at Santlago with black powder. Milliary inexperience is the targer half of what is called military mismanagemeut in this country. "

> One of the most daring burglaries on record is reported from Ohio. A burglar entered the house of an Ohlo politician, but, by rare good fortune, escaped with his life and kit.

Up in Maine there is a factory that turns out 8,000,000 wooden toothpieks | Heline, Hurne, Holls, Feloue, Corne, Skin frupevery day, but the man who thinks po- tions. Hest Pile rure on earth. There a box Cona etry is dead keeps on using his fork.

MIDDLEBURG.

Miss Luia Benson sold her interest. 1-7) of the Green Russell farm, to her Bryan "ain't got any business fouring unele, W. C. Russell, for \$250. Mr. Russell now owns three shares.

Is liable to get a flagship when the next is making frequent visits up there. If Bryan that he has not made as much patient is a most estimable young lady, out of religion. and the very pleture of health.

F. M. Browning and J. B. Atlautt have moved to Boyle. Robert Devall has rented a farm in Woodford county and has moved to it. They all lived in the Grove section. J. C. Coulter, Reuben Staton and D. G. Eitlott have been chosen commissioners to lot the Green Russell farm, and they began work Monday. J. I'. Lay is doing the surveying. J. C. Collingworth has sold his stock of goods here to Michel Taylor and the stock has been moved to the house lately vacated by Theo. Wesley. Albert Keeney will probably clerk for Tomlinson has bought out French & failed. Keisay at Yoserulte.

Since writing the article on the bridge question some weeks ago, we have been urged by a number of taxpayers to continue the fight to the finlsh. Having interviewed a number of

to find one that favors the proposed bridge at Liberty. They say they have bridge at Liberty. They say they have I desire to exchange a Wagou and Jean for clear paid taxes for public improvemets for ing up faud Call on craddress. Banford, Ky the last 10 years and I think it time to call a halt and give them a season of rest. Besides the proposed bridge would be of no practical use to this or the Eastern part of the county in case of high water. When the river is not fordable here, we would be forced bridge or no bridge to take the mud road via Carpenter's Creek to reach Liberty, where the people East of us are cut off by Knob Liek at Yosemile, as both river and creek are on a "tear" at the same time. Our people are public of the county in the same time. Our people are public of the county in the same time. Our people are public of the county in the same time. Our people are public of the county is the county in the same time. Our people are public of the county in the same time. Our people are public of the county is the county in the same time. Our people are public of the county is the county in the same time. Our people are public of the county is the county in the county in the county is the force of the county is the county in the county in the county is the county in the county is the county in the county is the county in the county in the county in the county is the county in the county is the county in the Eastern part of the county in case spirited. Whatever is the opinion of smart Alceks to the contrary notwithstanding, but are unwilling to be forced to pay for something that can be of no use to them. It seems to us that if those who pay the tuxes are willing to bear the occasional inconveniences of high water that horseless and buggy-'Heap much fight," she said. He smiled less correspondents like the writer

might weit do so without his public spiritedness being called in question.

nangers of the Ghip.

The greatest danger from La Grippe Is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, aif danger will be avoided. Among the tens of thousands who have used this remedy for is grippe we have yet to learn of a single case having resulting the pneumonia which shows conclusively that this remedy is a certain preventive of that dangerous disearch, it will cure is grippe in tess time than preventive of that dangerous disearch. It is microsia for including the provided sold in the series of the bighest in disearch its microsia of offering the committee reserving the privilege of 5,000 milli ull board fine said date. The danger cent, are unuam, payable semi-autous ally in Sept. I and Mar. I of each year. The dempthon of said loands before their maturality shall be made severally necording to the series and scrild damber of the lands, lagiming with bond Son. I series each single and series and scrild damber of the lands. We floor the series and scrild damber of the lands. Sughning with bond Son. I series each will be payable in 29 years from said date. The damber can be all your sept. I and Mar. I of each year, and the lands will be sories and scrild damber of the lands. Sughning with bond Son. I series each will be payable in 29 years from said date. The damber can be all your sept. I and Mar. I of each year, and the payable in 29 years from said date. The damber can be all your sept.
